

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

De siriss kwestion az tu de permanens ov ðis fimel, on hwitg de welð ov de negon sör mätg dependz, haz bin prominentli rezd.

Sins de gret diskæveri ov Mærtgisæn, ðat kæl ænderleiz, and me bi found wið rizonabel sertenti ænder de lær niu red sandstæn and permian formegeonz hwitg ekstend över milionz ov ekerz ov Gret Briten; and if binið ðem at greter depðs, ænder ol ðe mejurz hwitg överlei de permian, and hwitg, tugeðer kompreiz æpwardz ov wæn hæf de eria ov Gret Briten, wi me konsider our kæl-meinz tu bi praktikali inekzæstibel, and ðat wi hav not tu fir eni defigensi in kwontiti, areizig from de ekzæstion ov de mineral, bæt rsæfer de praktikal difikælti ov obtænið it from a depð bilæ ðe særfes, in konsekwens ov de sentral hit ov our gløb, hwitg, it iz aledjd, wil æltimetli and wiðin a defeind and not distant piriod, redius de præðskæon tu a limited sæplei.

Mætg me bi sed in sæpört ov de ðiori ov sentral hit, bæt ei ðiñk ændiu importans haz bin given tu it, az a difikælti in meinig operegeonz. A komparativli ðin kætig ov kle, or feir-briks, særoundig a blast færnes fild wið mæltæn eiron, aferdz sætg prætekæon ðat de hand me bi plest wiðout inkonviniens on de outer særfes ov de brik-wærk, and it iz difikælt tu ænderstand hou eni internal hit kan penetret ðruu de kræst ov de erð—estimated tu bi ðerti-fær meilz in ðiknes—sø az tu interfir wið de temperatiur at de komparativli smöl depð from de særfes at hwitg meinig operegeonz ar karid on. Ei am ov opinion ðat de hit, hwitg ændoutedli ekzists in sæm meinz, areizez, not from sentral hit, bæt from siuuperinkæmbent prægur, and defektiv ventileæon. ðe gazez in de kæl ar heili komprest,

az gret an amount ov inkəm and properti taks az iz ped bei de høl ov de farmerz ov Gret Briten.

Anðer sers ov welð iz de gret depozit ov kəl, and eiron, støn, and æder mineralz—in nirli everi part ov de kinðom. De mœst important ov ðiz iz kəl. De kwontiti ov kəl rezd in Gret Briten iz nou about wæn hændred milionz ov tænz yirli, prædiuist bei de lebor ov about ðri hændred ðouzand men.

Wi ar indeted tu Prøfesar Libig, de selebreted Djer-man kimist, for deta bei hwitg wi kan estimet de valiu ov ðis enorms kwontiti ov fiuel, bei komperin it wið wud or eni æder prodius ov de soil.

De benefiqal efekts ov de relwe sistem hav not bin konfeind tu Gret Briten. Bifōr de intrōdskqon ov relwez de land woz nirli de ȳnli sef minz in Yurop for de investment ov kapital ; and in konsekwens ov de kompetiqon for dis sekiurriti, de interest woz rediust tu a minimēm ret, and woz berli sēfīqent tu indius pipel tu sev a pōrqon ov ðer inkēm. ## THE PHONETIC ALPHABET.

The Phonetic Alphabet consists of 34 letters, namely, the 23 useful letters of the common alphabet (*c, q* and *x* being rejected,) and the 11 new ones below. *J* is used for the French *j* (*zh*), or *g* in *edge*, or *s* in "vision;" hence *dj* represents *J* in *John*, and *dg* in *edge*. *Tg* (*t sh*) represents *ch* in *chess*, and *tch* in *catch*. *Y* and *w* are consonants; *wh* being replaced by *hw*. The vowels *a, e, i, o, u*, have invariably their short sounds, as in *pat, pet, pit, pot, put*. All the other old letters have their usual signification. The italic letters in the words in the third line denote the SOUNDS of the letters.

Handwritten text in a cursive script, likely a form of shorthand or a specific dialect. The text is organized into approximately 15 horizontal lines, each containing a series of connected, stylized characters. The script is dense and fluid, with many characters resembling loops and curves. The lines are separated by small gaps, and the overall layout is rectangular, fitting within the page's margins.

Handwritten text in Arabic script, likely a manuscript or a collection of notes. The text is written on a grid of lines and is mostly illegible due to the cursive style and the quality of the image. The text appears to be a mix of religious or philosophical statements and possibly a list or a series of questions and answers. The handwriting is dense and fills most of the page.

 attended by about 100  
 persons, including many  
 of the most prominent  
 working men of the  
 city. The meeting was  
 opened by the reading  
 of a paper by Mr. J. W.  
 Smith, on the subject of  
 the "Social Sciences."  
 The paper was well  
 received, and was  
 followed by a discussion  
 on the same subject.  
 The meeting then  
 adjourned until the  
 next evening.

# THE REPORTING MAGAZINE.

## ERRORS OF EDUCATION.

1. The first error is the failure to recognize the importance of the child's individuality. The child is not a blank slate, but a being with his own thoughts, feelings, and experiences. The teacher must learn to see the child as a whole person, not just a collection of facts to be drilled into his mind.

2. The second error is the overemphasis on rote learning. The child is often asked to memorize facts and figures without understanding their meaning or how they relate to the world around him. This leads to a shallow knowledge that is easily forgotten.

3. The third error is the lack of emphasis on practical education. The child is often taught abstract concepts without being given the opportunity to apply them in real life. This makes learning meaningless and uninteresting.

4. The fourth error is the failure to develop the child's creative abilities. The child is often encouraged to follow a set pattern of thinking, rather than being encouraged to think for himself and come up with his own ideas.

5. The fifth error is the lack of emphasis on character education. The child is often taught to be obedient and to follow rules, but he is not taught to be honest, brave, and kind. These are the qualities that will truly serve him in life.
